EDUCATION

Najran University

Bachelor Degree, Computer Science

2022/01 | Najran, Saudi Arabia

EXPERIENCE

King Salman Global Academy for Arabic Language

Full Stack Developer

2023/11 – present | Riyadh, Saudi Arabia

- React.js, React Native, Typescript, JavaScript developer

- Developing a web application tool for scraping Arabic websites, designed to collect blogs and entries from Arabic dictionaries. This project was implemented using the Cheerio library.

- Collaborated with the Mobile team to assist in building the Riyadh Dictionary app.

Tuwaiq Academy Bootcamp

Full Stack Developer Trainee

2023/01 – 2023/03 | Riyadh, Saudi Arabia

- Developed responsive mobile web applications using HTML, CSS, JavaScript, and React with TypeScript. Utilized Chakra UI and Bootstrap for styling.

- Built Back-end web applications using a modern technology stack, including Node.js and Express.js with TypeScript.

- Implemented data validation using Zod. Utilized Prisma with MySQL for the database, emphasizing type safety and data validation for increased reliability.

Saudi Aramco

Font-End Developer - Coop

2022/01 – 2022/04 | Dhahran, Saudi Arabia

- Served as a front-end developer at HR Aramco.
- Developed a website for Aramco's HR for Recruitment service for new employees (Dashboard) using Html/CSS/Bootstrap/ JavaScript/ Chart.Js.

- Additionally, I developed a program for dynamic PDF document generation, which was integrated into the Deeds Management System (DMS). This was accomplished using JavaScript libraries such as jsPDF and Zip.js
